# CSS Links

**Topics :** CSS
**Written on** March 23, 2021

CSS Links can be styled with any CSS property like color, background, font-size, font-family, border etc.

Links can be styled as per as links states.

CSS Links properties are as below accouring to four states.

1. a:link - a normal, unvisited hyperlinks.
2. a:visited - user has visited hyperlinks.
3. a:hover - a link when the user mouses over it
4. a:active - user hase clicked hyperlinks.

**Syntax :**

```
<style type = "text/css">
  a:link {}
  a:visited {}
  a:hover {}
  a:active {}
</style>
```

**Set the Color of unvisited, visited ,mouses overed hyperlinks:**

```
<html>
<head>
