How to Download and Install Node.js on server?

Node.js is an open-source, cross-platform JavaScript runtime environment. You can download Node.js from this website https://nodejs.org.

You can also install Node.js via package manager as below command

npm install

Alpine Linux

```
apk add nodejs npm
```

Windows

winget install OpenJS.NodeJS

or for LTS

winget install OpenJS.NodeJS.LTS

Android

```
pkg install nodejs
```

CentOS

```
dnf module install nodejs:<version>
```
