Node.js MySQL Drop

MySQL package is used to Drop table from database

DROP TABLE mysql statement is used to drop table in mysql database.

Example :

```
const mysql = require('mysql');

const db = mysql.createConnection({
  host: "localhost",
  user: "root",
  password: "*****",
  database : "aryadb"
});

// connect to database
db.connect((err) => {
  if (err) {
    throw err;
  } else {
    console.log('Connected to database!');

    db.query("drop table employee ", function (err, result) {
      if (err) throw err;
      console.log("employee table is deleted!");
    });
  }
});
```

Write above code in server.js file and run this program as below.

```
D:\nodejs\website> node server.js
```

It gives output as below.

employee table is deleted!
